

Push Pop Bubble Game

Object of the Game: Make your opponent pop the last bubble.

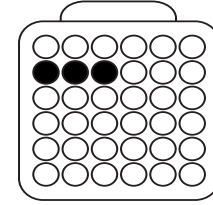

Basic Rules:

Each player, on their turn, selects a row and pops any number of connected bubbles they wish in that row only. If they wish, they may pop all the bubbles in a row in a single move.

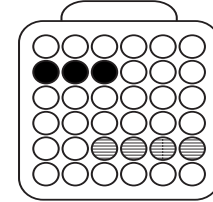

On their turn, the opponent selects any row with unpopped bubbles, including the same row that the last player used, and pops one or more bubbles in that row.

The player who ends up popping the last bubble on the board loses the game. Flip over to reset the bubbles and you're ready for another round!

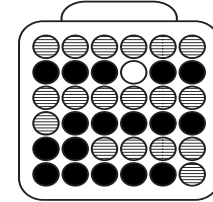

Player 1 - Move 1:

Player 2 - Move 1:

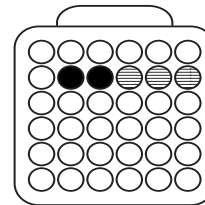

Final Move - Last Pop Left

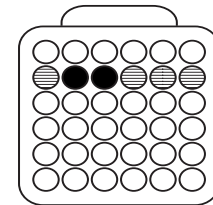

Advanced Rules:

The rules remain the same, the only difference is that players can only pop multiple bubbles in adjacent rows/ directly next to each other, without any popped bubbles in between them.
